

All Salem students are invited to participate in the Salem Elementary Science Fair to be held the evening of **January 23, 2012**.

You can register online at <http://salemscience.utprosim.com> or return the form available from teachers by January 13, 2010

Put the scientific method to work! Come up with an interesting question, decide what you think will happen, test that prediction and report on your findings.

Open to all Salem Elementary Students

This is the only paper flyer that will be sent home with all students, we've gone green!

Requirements

- A grade level appropriate project report.
- A tri-fold display explaining the project steps is encouraged.
- Visuals may be included in the display to show parts of the project.

Award Categories

- top 3 projects in K – 2nd grades
- top 3 projects in 3rd – 5th grades, plus the opportunity to go on the NC Science and Engineering Central Regional 3A Science Fair
- Each student will receive a certificate of participation

Volunteers Needed

- Volunteer judges, particularly those working all science disciplines. Share information about your judge with budding Salem scientists. You can judge other grade levels even if you child is participating.
- Volunteers to check in students with their projects
- Volunteers to help tabulate scores

Complete guidelines, state display rules, and more pointers to resources on selecting a topic and creating a great project are also available on the Salem Elementary website (<http://tinyurl.com/salemsciencefair>).
